

Are you a
POOPED PARENT?!

Who's Coming?

Pooped parents of birth, adopted or foster children, who are looking for answers and peace in their home. **Both parents must attend in two parent families.**

Challenging children, ages 5 to 12, needing intervention to head them toward success and love.

Emotionally healthy siblings who participate in a special program designed to honor and encourage them with unforgettable fun!

We provide a week of professionally-led family bonding and fun. The Camp is designed to provide parenting skills and one-on-one coaching to help children with attachment issues learn to be respectful, responsible and fun to be around.

Be part of the 2010 Turning Point Camp and learn a new approach to effective parenting for your children and create family memories that can last a lifetime.

What Is Turning Point Camp?

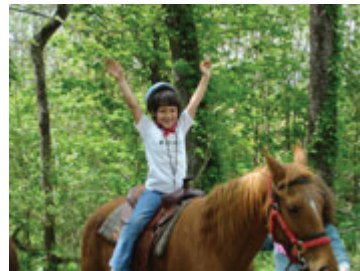

Our camps are designed to help families to connect and help challenging children to redirect their paths. The focus of camp is to renew, recharge, and empower each parent and child with effective techniques to increase love and laughter in their homes. Skill building interventions will be taught and practiced to build trust, honesty, self-control, and conscience development.

Most of us learn best with a hands on approach. Living the techniques and experiencing the change is the camp goal. Families can then return home and continue to successfully improve relationships with their new skills.

Learning in a beautiful environment away from daily distractions surrounded by support and encouragement has been a turning point for many. The tools work! The staff is uplifting and skilled! The food is fantastic! The laughter is contagious. The memories are priceless. Join us and change your life.

Who is Nancy Thomas?

Nancy has been successful with challenging children for over 30 years. From this experience she has developed effective tools and a strategy that has gained her respect as a leader and trainer in therapeutic parenting both in the United States and internationally. Parents love Nancy because she speaks heart to heart with compassion and humor. She also sends parents home with a real-world plan of action. Professionals respect her because her parenting methods provide a balance of nurture and structure, essential elements of healing for children with RAD and other emotional disorders.
